

MOHAMMAD ZAID KHAN

Software Engineer | Full-Stack Developer | Competitive Programmer

Noida, India • zaidkhan24082006@gmail.com • github.com/zaid786-collab • linkedin.com/in/mohammad-zaid-khan-a2927a370

EDUCATION

ABES Engineering College — Ghaziabad, India (2025 – 2029)
Bachelor of Technology in Computer Science & Engineering | CGPA: 9.1

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Python
Frontend: React, HTML5, CSS3, Tailwind CSS, Vite, Framer Motion
Backend & Databases: Node.js, Express.js, Flask, FastAPI, MongoDB, Mongoose, SQL
Developer Tools & Focus Areas: Git, GitHub, Docker, RESTful APIs, Data Structures & Algorithms, AI/GenAI Fundamentals

COMPETITIVE PROGRAMMING

LeetCode: 334+ Problems Solved | Contest Rating: 1637 | Badges: 50 Days, 100 Days, 200 Days Badge (leetcode.com/u/MOHAMMADZAIDKHAN7)
CodeChef: 619+ Problems Solved | Rating: 1420 (2-Star Division 3) | Diamond Badge (codechef.com/users/zaid_khan07)
Codeforces: Active Contest Participant (codeforces.com/profile/MohammadZaidKhan)

FEATURED SOFTWARE ENGINEERING PROJECTS

Intervista AI — *Next-Gen AI Technical Interview Platform* [Project Leader]

Tech Stack: React 18, FastAPI, Python, Large Language Models, Vite, Tailwind CSS

- Architected an enterprise-grade AI technical interview simulation platform pairing LLMs with audio/video feedback and real-time speech-to-text.
- Integrated an in-browser code editor supporting automated test case execution, time/space complexity analysis, and ATS resume scoring with PDF reporting.

Crime Lens — *Cybernetic Crime Investigation & Telemetry Platform* [Project Leader]

Tech Stack: React 19, Vite, Network Graph Visualization, JavaScript, CSS3

- Constructed tactical intelligence platform featuring an interactive Network Nexus graph for multi-hop entity resolution and financial flow tracking.
- Built chronological event timeline with anomaly spike detection, Entity 360 dossiers, and cryptographic evidence sealing adhering to chain-of-custody standards.

Smart Stocks — *AI-Powered Investment Intelligence Platform* [Project Leader]

Tech Stack: React, Vite, Lucide React, Tailwind CSS, PostCSS

- Developed market data intelligence interface analyzing real-time price indicators, trend projections, company health metrics, and automated risk scoring.

EXPERIENCE & LEADERSHIP

Freelance Microsoft Dynamics 365 Analyst — IT Solutions (Ongoing | Remote)

- Delivering technical analysis and configuration on Microsoft Dynamics 365 implementations, workflow automations, and enterprise data integrations.

Team Leader — Smart India Hackathon (SIH) & Build with Bharat (Hackathon Leadership)

- Led multidisciplinary teams in architecting scalable solutions for real-world problem statements, coordinating rapid development, sprint timelines, and technical presentations.

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

- NIELIT O Level (3 Completed, 1 In Progress) — National Institute of Electronics & Information Technology
- Microsoft Certified Data Analyst — Microsoft
- Generative AI: Introduction, Applications & Prompt Engineering Basics — IBM / Leading Providers
- Python for Data Science, AI & Development — IBM
- Claude AI — PW Skills
